Core Capabilities

User-Friendly Dashboards

Real-time data visualization for easy processing of information and identification of trends and/or exceptions.

Automated Post Orders

Digitize the paper trail, increase efficiency, and enhance security operations with automated post orders. Security professionals receive tour orders, have immediate access to important site information, and record daily activity directly in their HELIAUS mobile device.

Zone-Based Site Controls

Safety and security needs are segmented by custom zone models of your property for tailored response and AI recommendations.

Smart Sensors

Automatically trigger zone-specific points using beacon and GPS technology that ensure security professionals are situationally engaged whether indoors or outdoors.

Dynamic Tours

The “give and get” system shares information and action in real-time to ensure security professionals are always situationally engaged. Tasks and actions are fully defined in every zone they enter and the system automatically prompts them on what to look for and how to effectively respond.

The Power of Insight Into Action®

Continuous Value

It is not just a tour, reporting tool, or incident management system. HELIAUS® is an all-encompassing, adaptable workforce management solution.

With prescriptive analytics driving action, HELIAUS® transforms insight into safety and security ROI.

HELIAUS® is Allied Universal's industry-exclusive prescriptive technology platform designed to bring security teams unparalleled situational awareness and advanced protection, helping ensure rapid response and efficient risk mitigation.
