

Intelligence-Driven Workforce Management

Manage on-premise workflow more effectively and transform the traditional reporting process into a paperless, real-time solution with this Web and GPS-based technology.

CyCop® is an advanced patrol and reporting program that provides the latest, accurate data about your property and security professionals. Workforce supervision is made transparent with real-time movement tracking, reporting and escalating alert structure, improving workflow and task management. Timely incident reporting and data collection via Web and mobile interfaces, with incident specific notifications and report distribution, ensures incidents are handled quickly and thoroughly. Deploy smarter with on-demand incident trend analysis tools.

Key Features

- Information Management
 - Compatible with multiple smartphones, tablets, laptops or desktop computers
 - SaaS model program stores records for instant access through customer portal
- Security Guard Tour Tracking and Supervision
 - Offers real-time information on personnel locations
 - Includes color-coded checkpoint history of time, place and tour activity
 - Alerts security professionals of required tasks and escalates problems in real time to supervisors
- Automated Incident and Daily Activity Reporting
 - Delivers reports securely to management
 - Accommodates digital photos
 - Archive reports for later use
- Interactive Post Orders and Online Training
 - Access course materials for each property
 - Tailor test criteria as needed
- Trend Analysis Reporting
 - Check statistics, review and compare data for efficiency and liability improvements
